# ABOUT US

We are dedicated to delivering the finest natural honey and premium agricultural products sourced from trusted and responsible producers across India and global markets. Every product in our portfolio is carefully selected to ensure unmatched purity, rich natural value, and consistent quality that meets international standards.

Driven by a deep respect for nature and a commitment to excellence, our journey focuses on bridging the gap between traditional farming communities and modern global consumers. We believe in preserving the natural integrity of every product while making it accessible to households and businesses worldwide.

Our operations are rooted in ethical sourcing practices, strict quality assurance processes, and transparent supply chain management. Each batch undergoes rigorous testing and inspection to ensure it reflects our core values of authenticity, safety, and excellence.

Beyond business, we are passionate about creating a positive impact. By working closely with farmers, beekeepers, and agricultural partners, we help promote sustainable livelihoods and encourage environmentally responsible farming practices.

As we continue to grow, our mission remains clear — to bring nature's purest offerings to every table while supporting healthier lifestyles and building long-term trust with our customers across the globe.

Our vision is rooted in the belief that nature provides the best nourishment for healthy living. With this philosophy, we carefully curate and export products that retain their natural essence, nutritional value, and original freshness. From farm to global markets, we ensure every step of the journey is managed with precision, care, and responsibility.

Over the years, we have built a strong reputation in the import-export industry by consistently upholding values of integrity, transparency, and reliability. Our customers trust us not only for product quality but also for our consistent commitment to delivering excellence in every transaction.

# GRANITE & MARBLE

We supply premium Granite and Marble sourced from trusted quarries, offering exceptional durability, elegant aesthetics, and superior quality for residential, commercial, and infrastructure projects worldwide.

## Key Features

High Durability and Strength

Elegant Natural Patterns and Colors

Excellent Weather Resistance

Smooth and Premium Finishes

Suitable for Interior and Exterior Applications

Available in Various Sizes and Thicknesses

International Quality Standards

# WOOD

We supply premium-quality timber and specialty wood sourced from reliable suppliers, ensuring durability, strength, and superior quality for furniture, construction, handicrafts, and industrial applications.

## TEAKWOOD

Premium hardwood known for its durability, strength, and natural resistance to moisture and termites.

## ROSEWOOD

High-quality timber valued for its rich color, attractive grain patterns, and use in luxury furniture.

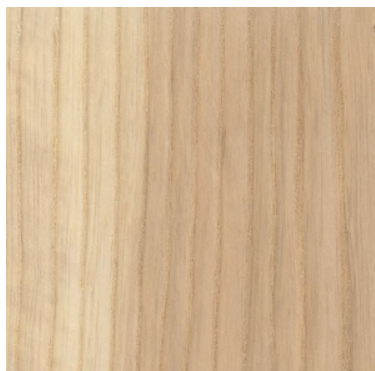

## AGARWOOD

Rare and valuable wood renowned for its distinctive fragrance and use in perfumes and incense.

## RED SANDERS WOOD

Exclusive hardwood prized for its deep red color, durability, and decorative applications.

## WHITE SANDERS WOOD

Premium aromatic wood widely used for carving, handicrafts, and specialty products.

## NILGIRI WOOD

Versatile and sustainable timber suitable for construction, furniture, and industrial purposes.

# VEGETABLES, FRUITS & SPICES

We export fresh fruits, vegetables, spices, and agricultural products sourced directly from trusted farms, ensuring superior quality, freshness, and compliance with international standards.

## JAGGERY

A traditional unrefined sweetener made from fresh sugarcane juice. It is naturally rich in iron, calcium, and minerals, making it a healthier alternative to refined sugar and widely used in food processing and sweets.

## G9 CAVENDISH BANANA

Export-quality bananas with consistent size, smooth peel, and naturally sweet taste. Widely demanded in international markets for fresh consumption and retail supply chains.

## BULB TURMERIC

Golden spice known for its high curcumin content, medicinal properties, and vibrant color. Widely used in cooking, herbal medicine, and cosmetics industries.

## APPLE

Fresh, crisp, and juicy apples known for their natural sweetness and high fiber content. Apples are widely consumed as a healthy snack and used in juices, desserts, and bakery products.

## **G4 GREEN CHILI**

Fresh green chilies with sharp pungency and bright green color. Essential ingredient in culinary applications for enhancing spice and flavor.

## **CARDAMOM**

Highly aromatic spice with a sweet and strong fragrance. Used in sweets, beverages, desserts, and premium culinary applications worldwide.

## **POMEGRANATE**

Premium-grade pomegranates with vibrant red arils, known for their antioxidant properties, rich taste, and nutritional benefits. Highly valued in fresh fruit markets and juice industries.

## **RED CHILI**

Sun-dried chilies with intense color, strong aroma, and high spiciness. Used extensively in spice production, sauces, and seasoning blends.

## **BLACK PEPPER**

Sun-dried chilies with intense color, strong aroma, and high spiciness. Used extensively in spice production, sauces, and seasoning blends.

## **BULB TURMERIC**

Carefully harvested and hygienically processed, our turmeric meets export-quality standards and is suitable for food, medicinal, and industrial applications worldwide.

## **WATERMELEON SEEDS**

Our seeds meet export standards and are suitable for food processing, snack production, and agricultural applications.

## **GRAM (CHICKPEAS)**

Carefully cleaned, sorted, and processed, our chickpeas meet export standards and are widely used in households and food industries across global markets.

## **DRY COCONUTS**

We supply premium-quality Dry Coconut sourced from trusted farms, carefully selected, processed, and naturally dried to preserve its rich aroma, taste, and nutritional value.

# METAL SCRAP

We supply high-quality metal scrap sourced from reliable vendors, ensuring consistency, recyclability, and suitability for industrial manufacturing and metal processing applications.

## IRON SCRAP

High-quality ferrous scrap collected from industrial and structural sources. It is widely used in steel manufacturing, construction, and reprocessing industries for producing new metal products. Known for its high melting efficiency and strong recycling value.

## ALUMINIUM SCRAP

Lightweight, corrosion-resistant scrap aluminum sourced from industrial waste, automotive parts, and packaging materials. It is highly recyclable and widely used in aerospace, automotive, and construction industries due to its durability and energy efficiency in reprocessing.

## CROPPER SCRAP

Premium-grade copper scrap with excellent conductivity and purity levels. Commonly recovered from electrical wiring, industrial machinery, and plumbing systems. It is highly valued in electrical, electronics, and industrial manufacturing sectors.
